### **SAFed Welcomes Beth Wilson**

*Cumbrian Sixth Former joins leading UK Trade Association*  
**Vauxhall, London, 10<sup>th</sup> August 2021**

SAFed is pleased to welcome Beth Wilson, as their first Summer Intern. Beth, who hails from Wigton in North-West Cumbria, will spend a four-week placement working alongside Chief Executive, Caroline Hamilton, Technical Manager, Joe Royle and Office and Finance Manager, Jane Bertini.

Beth has already spent several days at SAFed's Vauxhall Head Office and will undertake a variety of tasks including project-based and administrative duties.

Beth attends the Nelson Thomlinson School in Wigton where she studies A levels in Business Studies, Sociology and Psychology. She will develop her technical skills, gaining experience in working in the engineering inspection sector and be able to learn from the knowledge SAFed has in its experienced team.

Beth said 'I hope to develop an insight into the real world of work and to develop useful skills during my time with SAFed. I am also excited to work alongside Caroline who has shown just what you can achieve if you put your mind to it'.

Chief Executive, Caroline Hamilton added 'At SAFed, given we are a small team, I am seeking new ways of working. An office intern has provided valuable resource for SAFed, and great experience for Beth who has had to use her own initiative and has demonstrated she is very capable. Office tasks have ranged from supporting Jane in itemising and stock checking, to reviewing the Asset Register for the next portable appliance tests which is essential for good office health and safety, to research for updates to our website which will help manage queries that Joe addresses.'
